ggplot2

Elegant Graphics for Data Analysis

Contents

1	Inti	roduction	1
	1.1	Welcome to ggplot2	1
	1.2	Other resources	2
	1.3	What is the grammar of graphics?	3
	1.4	How does ggplot2 fit in with other R graphics?	4
	1.5	About this book	5
	1.6	Installation	6
	1.7	Acknowledgements	6
2	Get	ting started with qplot	9
	2.1	Introduction	9
	2.2	Datasets	10
	2.3	Basic use	11
	2.4	Colour, size, shape and other aesthetic attributes	12
	2.5	Plot geoms	13
		2.5.1 Adding a smoother to a plot	14
		2.5.2 Boxplots and jittered points	16
		2.5.3 Histogram and density plots	18
		2.5.4 Bar charts	20
		2.5.5 Time series with line and path plots	20
	2.6	Faceting	22
	2.7	Other options	23
	2.8	Differences from plot	26
3	Ma	stering the grammar	27
	3.1	Introduction	27
	3.2	Fuel economy data	28
	3.3	Building a scatterplot	29
	3.4	A more complex plot	34
	3.5	Components of the layered grammar	35
		3.5.1 Layers	37
		3.5.2 Scales	37
		3.5.3 Coordinate system	38
		3.5.4 Faceting	38
	3.6	Data structures	39

4	Build a plot layer by layer 4			
	4.1	Introduction	41	
	4.2	Creating a plot	42	
	4.3	Layers	42	
	4.4	Data	45	
	4.5	Aesthetic mappings	46	
		4.5.1 Plots and layers	46	
		4.5.2 Setting vs. mapping	47	
		4.5.3 Grouping	49	
		4.5.4 Matching aesthetics to graphic objects	52	
	4.6	Geoms	55	
	4.7	Stat	55	
	4.8	Position adjustments	59	
	4.9	Pulling it all together	59	
	2.0	4.9.1 Combining geoms and stats	60	
		4.9.2 Displaying precomputed statistics	62	
		4.9.3 Varying aesthetics and data	62	
		1.5.5 Varying destriction and date	02	
5	Too	lbox	65	
	5.1	Introduction	65	
	5.2	Overall layering strategy	66	
	5.3	Basic plot types	66	
	5.4	Displaying distributions	68	
	5.5	Dealing with overplotting	72	
	5.6	Surface plots	77	
	5.7	Drawing maps	77	
	5.8	Revealing uncertainty	80	
	5.9	Statistical summaries	81	
		5.9.1 Individual summary functions	84	
		5.9.2 Single summary function	84	
	5.10	Annotating a plot	85	
		Weighted data	88	
	0.11	The same and the s	00	
6	Scal	es, axes and legends	91	
	6.1	Introduction	91	
	6.2	How scales work	92	
	6.3	Usage	93	
	6.4	Scale details	96	
		6.4.1 Common arguments	96	
		6.4.2 Position scales	98	
		6.4.3 Colour	102	
		6.4.4 The manual discrete scale	107	
		6.4.5 The identity scale
